

FISHPONDS FLOWERS

Funeral and remembrance flowers

We know how important and personal flowers for funerals and farewell events are, and we will work with you to provide flower arrangements that honour the person you are remembering. We will take time to listen to your needs and ideas and talk through the options available. We can also work with you to develop or tailor arrangements so that they include flowers, foliage or other special and meaningful items as a tribute to the person being remembered.

This guide includes photos and information that illustrate some arrangements that we offer for funerals, life celebrations and remembrances. Our arrangements only use British-grown flowers, so each one will be unique, contain seasonal flowers, and be created with sustainable floristry practices. Practically, this means that the arrangements pictured are examples and the ones we provide will vary depending on the flowers and foliage available at the time. We can also work with you to provide other possibilities that are not pictured here.

Please get in touch to discuss funeral flowers with us via email, phone or our website contact page.
